June 10, 2022

Maryland's Preferred Drug List - July 1, 2022

Generic vs. Brand Status on Maryland's Preferred Drug List

Maryland Medicaid's Preferred Drug List (PDL), encompassing over 1800 drugs, covers most of the generic versions of preferred multisource brand drugs without any type of prior authorization. If the prescription for a brand name drug is to be dispensed as written, the prescriber must complete and submit a Medwatch form

<https://health.maryland.gov/mmcp/pap/docs/PA%20Forms/Maryland%20Medwatch%20Form.pdf>. The State's clinical pharmacy team will review the Medwatch form and notify the prescriber whether the request for the brand name drug was approved or denied. The State will forward the Medwatch form to the FDA when appropriate.

The Office of Pharmacy Services (OPS) wants to alert you to changes in the exceptions to this rule that are included in the attached updated Preferred Drug List.

In an effort to give timely notice to the pharmacy community concerning important pharmacy topics, the Maryland Department of Health (**MDH**) **Office of Pharmacy Services (OPS)** has developed the **Maryland Medicaid Pharmacy Program Advisory**.

To expedite information timely to the pharmacy and prescriber communities, an email network has been established which incorporates the email lists of the Maryland Pharmacists Association, EPIC, CARE, Long Term Care Consultants, headquarters of all chain drugstores and prescriber associations and organizations.

It is our hope that the information is disseminated to all interested parties. If you have not received this email through any of the previously noted parties or via MDH, please contact the OPS representative at 410-767-1455.

Effective July 1, 2022, the following brand name medications are preferred over their corresponding generics: Lantus Solostar and Flovent HFA. Claims for these brand name insulin medications must be submitted with DAW 6 code and will be priced appropriately. A Maryland Department of Health (MDH) Medwatch form will not be required. Claims with any other DAW code will reject.

Please refer to our website for a complete list of the PDL at the following link:

<https://mmcp.health.maryland.gov/pap/pages/Preferred-Drug-List.aspx>

Not All Generics are Preferred

In order for the State to enhance the benefit of the PDL, in some instances when manufacturer rebates are taken into consideration, the multisource brand name drug is Preferred over its generic equivalent because the branded drug is more cost effective to the State than its generic counterpart. When the brand name drug is Preferred, no Medwatch nor authorization is needed¹. Enter a **DAW code of 6** on the claim to have it correctly priced. If any problems are encountered during the on-line claim adjudication of Preferred Brands, contact Conduent's 24-hour Help Desk at 800-932-3918 for additional system overrides related to the use of the correct DAW code (For example, when there is other insurance). Please maintain this Advisory as a reference in addition to any updates that follow.

Therapeutic Class	Preferred BRAND	Non-Preferred GENERIC
Antibiotics, Inhaled	Bethkis (inhalation)	tobramycin powder (inhalation)
Anticonvulsants	Banzel tablets, suspension ²	rufinamide tablets, suspension ²
Anticonvulsants	Carbatrol capsule	carbamazepine ER capsule
Anticonvulsants	Depakote Sprinkle capsule	divalproex sprinkle capsule
Anticonvulsants	Diastat, Diastat Acudial	diazepam rectal
Anticonvulsants	Sabril tablet, Powder Packet ²	vigabatrin tablet, powder packet ²
Anticonvulsants	Tegretol suspension (oral)	carbamazepine suspension (oral)
Anticonvulsants	Trileptal suspension (oral)	oxcarbazepine suspension (oral)
Bronchodilators, Beta Agonists	ProAir HFA (inhalation)	albuterol HFA (inhalation)
Glucocorticoids, Inhaled	Symbicort (inhalation)	budesonide/formoterol (inhalation)
Hypoglycemics, Insulins	Humalog Junior Kwikpen ³	insulin lispro Junior Kwikpen ³
Hypoglycemics, Insulins	Humalog Mix 75/25 pen ³	insulin lispro mix pen ³
Hypoglycemics, Insulins	Humalog pen, vial ³	insulin lispro pen, vial ³
Hypoglycemics, Insulins	Novolog cartridge, pen, vial ³	insulin aspart cartridge, pen, vial ³
Hypoglycemics, Insulins	Novolog Mix 70/30 pen, vial ³	insulin aspart protamine/insulin aspart pen, vial ³
Immunosuppressives, Oral	Cellcept suspension	mycophenolate mofetil suspension
Opioid Use Disorder Treatments	Narcan Nasal Spray ³	naloxone nasal spray ³
Opioid Use Disorder Treatments	Suboxone Film	buprenorphine/naloxone film
Proton Pump Inhibitors	Prevacid SoluTab ODT	lansoprazole ODT
Stimulants and Related Agents	Adderall XR capsule	amphetamine salt combo ER capsule
Stimulants and Related Agents	Concerta tablet	methylphenidate ER capsule
Stimulants and Related Agents	Focalin XR capsule	dexmethylphenidate XR capsule
Hypoglycemics, Insulins	Lantus-Solostar	insulin glargine Solostar
Glucocorticoids, Inhaled	Flovent HFA	fluticasone propionate

¹Unless the Program has established clinical criteria for the drug. Clinical criteria can be found here.

²Is a non-preferred drug on the PDL and will require a prior authorization by the prescriber

³Both brand and generic preferred

Office of Pharmacy Services Medicaid Pharmacy Program

Preferred Drug List

Effective Date: 07/01/2022

Only drugs that are part of the listed therapeutic categories are affected by the Medicaid Preferred Drug List (PDL). Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid participants.

Note: Brand names listed in parentheses are only listed as a reference. For most multi-source products, the generic products are usually preferred and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as "**(generic only)**". PDL products that are new to market require prior authorization until they are reviewed.

ANALGESICS

Drug Class	Preferred	Requires Prior Authorization
Analgesics, Narcotics (Long Acting)	fentanyl patches (All strengths except 37.5mcg, 62.5mcg, 87.5mcg) morphine sulfate SR (MS Contin) Nucynta ER Xtampza ER	<i>buprenorphine film (Belbuca)^{ql}</i> <i>buprenorphine patch (Butrans)^{ql}</i> <i>fentanyl 37.5mcg, 62.5mcg, 87.5mcg patches</i> <i>hydrocodone ER (Hysingla ER, Zohydro ER)</i> <i>hydromorphone ER (Exalgo)^{ql}</i> <i>methadone (Dolophine)^{ql}</i> <i>morphine sulfate ER (Avinza)^{ql}</i> <i>morphine sulfate ER (Kadian)^{ql}</i> <i>oxycodone ER (Oxycontin)^{ql}</i> <i>oxymorphone ER (Opana ER)^{ql}</i> <i>tramadol ER (Conzip, Ryzolt, Ultram ER)^{ql}</i> <i>Morphabond ER</i>
